

EngageBH is NeuroFlow’s digital health platform for behavioral health specialists leveraging evidence-based techniques to enhance patient engagement and compliance.

The Problem

Research shows that clients who consistently complete homework assignments achieve better mental health outcomes¹. Yet compliance is commonly poor and providers have limited time to keep clients motivated and accountable between sessions.

NeuroFlow is here to help.

Technology as a Solution

90% of mental health technology users report improved and increased:

- ➔ Motivation
- ➔ Confidence
- ➔ Attitude
- ➔ Control
- ➔ Desire to set goals

Crookston, BT, et al. (2017) JMIR Ment Health.

This is Personal

NeuroFlow was founded by a US Army Veteran who became passionate about mental health through experiences during his service.

How NeuroFlow Integrates Into the Entire Continuum of Care

Our HIPAA-compliant, cloud-based platform empowers health care providers to objectively assess, track, and engage patients using evidence-based practices to support their mental health.

NeuroFlow is ideal for specialists that use CBT, DBT, mindfulness and exposure therapies, as well as behavioral health integration in primary care and pain management settings.

Pro

- ✓ Assign at-home exercises to patients such as journaling, worksheets, or meditation
- ✓ Digitized and auto-scored validated rating scales (e.g. PHQ-9, GAD-7, and many more)
- ✓ Patients can earn perks through NeuroFlow's engagement incentive program
- ✓ Add additional provider accounts at a discounted cost
- ✓ Real-time insights from biometric wearables to measure relaxation and more
- ✓ Personalized onboarding with a customer success manager
