

Health care providers are our heroes. IntegrateHealth is NeuroFlow's evidence-based digital health platform that integrates behavioral health into primary care, pain management, and other clinical settings.

### Who is IntegrateHealth For?

**Primary care providers, pain specialists, and other clinicians** who are at the frontlines of integrating behavioral health to provide holistic and effective care.

### Our Story

NeuroFlow was founded by a US Army Veteran who became passionate about mental health through experiences during his service.

### What Our Partners Say

*NeuroFlow is a great and effective program! Using this in our practice improves our patients' daily functionality and quality-of-life.*

**Young Lee**  
MD

*This provides a holistic approach for chronic pain management, and most of all we enjoy making a difference in people's lives.*

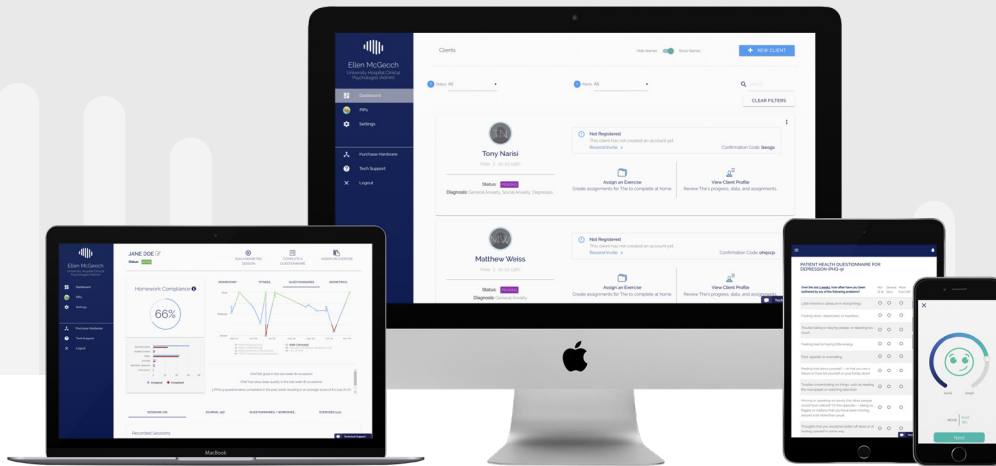

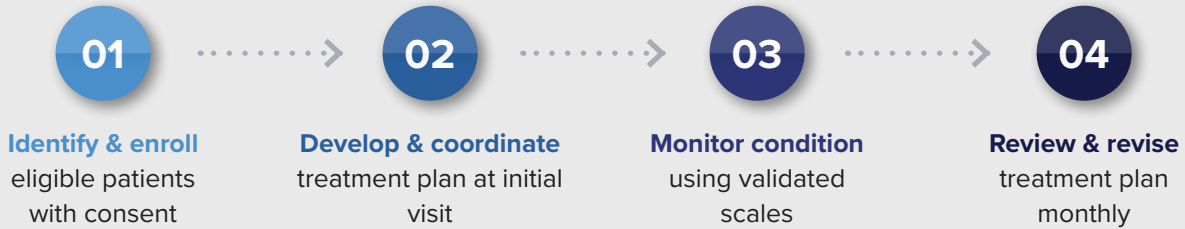

**Ron Lefkowitz**  
PAS

*I can see the benefits already!!! Thank you!*

## How It Works: 4 Easy Steps

### Seamless Workflow That Fits Into Your Practice or Health System

- ✔ Automated scales, templates, and monthly reviews
- ✔ Smart filters to quickly identify which patients require action
- ✔ Cloud platform with user-friendly mobile app for patients
- ✔ Evidence-based approaches to boost and reward engagement
- ✔ HIPAA-compliant and interoperable with EHRs

### Behavioral Health Integration is Insurance Reimbursable

IntegrateHealth helps automate and scale services which are eligible for reimbursement under a new CPT code adopted by a rapidly growing network of health insurers.

#### What's the ROI for Insurers?

According to the Blue Cross Blue Shield Association, **insurers spend 2.5X more annually for patients with depression than the total population.** Insurers are investing upfront in behavioral health to reduce long term utilization and chronic care costs.
